## 6. INFORMATIONAL ITEMS/STAFF REPORTS:

- a. Neelay Blatt, Next Practice Partners, presented the results of the Community Survey and Statistically Valid Survey for the Coronado Recreation Fee Study.

**Deborah Kaller** requested that the presentation be made available for review after the meeting.

Student Representative Hodges noted that the responses from high school students and other young Coronado residents were quite low in number and inquired as to the possibility of offering a secondary survey geared towards the younger demographic.

Commissioner Ritter agreed with Ms. Hodges and based on the survey findings, reiterated her desire for a printed brochure.

Commissioner Koczon asked for clarification regarding the new pricing structure for military personnel and seniors. Mr. Blatt confirmed that seniors and youth would pay less than adults, and military would pay less than civilians.

Commissioner Koczon suggested breaking up the non-resident fees into two classes: City of San Diego resident and Other.

Commissioner Sarich expressed concern that any potential "time of day" discounts might discriminate against certain families. Mr. Blatt clarified that most people did not support this type of discount and indicated that most support was for youth vs adult pricing.

Commissioner Ritter wants to ensure that there's no price barriers for youths to use the Recreation facilities, and that the price differential for nonresidents increases.

Commissioner Allen asked for clarification on the reason behind this fee study. Director Farmer informed the Commission that there was no previously established policy for the department's cost recovery, and this study will provide better direction going forward.
