Coronado, CA 92118

Subject: Coronado Lawn Bowls Club – Turf Replacement

This letter is to confirm that the synthetic lawn bowls surfaces designed branded “Pro-Master” have been mutually designed and manufactured by APT Asia Pacific exclusively for our company Berry Bowling Systems Pty Ltd for more than 20 years.

APT Asia Pacific is part of the global group of companies based in Europe known as Sports Group.

Our company holds there USA distribution and installation rights for synthetic lawn bowls surfaces. We proudly supplied and installed the existing synthetic lawn bowls surface at the Coronado Lawn Bowling Club to the satisfaction of the City of Coronado and the bowls club.

Northwest Surfacing Specialists dba Synlawn, in San Diego is the exclusive licensee of the Sports Group brand in the San Diego/Coronado area. They hold California State License Board #: 1057973 in the classification of Classification: C-61 / D12 - SYNTHETIC PRODUCTS.

Berry Bowling Systems and Northwest Surfacing Specialists/Synlawn are both linked with exclusivities within the Sports Group family and therefore the only companies who can supply and install “Pro-Master” in your area. Likewise, repairs and/or rectifications by any other company to a “Pro-Master” surface would void any warranties.

We thank you for your interest in replacing the existing “Pro-Master” surface with a new “Pro-Master” surface and assure you of our continued quality and professionalism in supporting Northwest/Synlaw with the materials and supervisors to undertake this replacement should the City decide to appoint our group to undertake the like-for-like replacement.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'David Aarons'.

David Aarons
