July 25, 2023

Dear Mayor Bailey, Council Members, and Ms. Friend,

Per City Council Policy #9, I am formally requesting that we reconsider our action to remove four Canary Island Pines on the 600 block of D Avenue, adjacent to the Lawn Bowling Green.

One of our duties is to implement the policies and decisions that we think our own electorate would want carried out. We act on their behalf. Over the course of the last several days, it has become apparent to me that a majority of the public would not likely support our course of action to remove the four aforementioned trees. Consequently, I am using Policy #9 to ask the Council to reconsider this action and to consider other solutions that abate our fungal problem under the lawn bowling green that won't require the removal of the four Canary Island Pines.

Respectfully,

Casey Tanaka
Council Member
